SUMMARY

Machine Learning Engineer & Full Stack Developer

Experienced in building AI-driven solutions with expertise in Deep Learning, NLP, Python, and Flask. Proficient in frontend development using HTML, CSS, JavaScript, and Angular, coupled with backend expertise for scalable systems. Skilled at deploying end-to-end machine learning models and creating user-friendly, efficient applications. Passionate about solving real-world problems with innovative, data-driven approaches.

WORK EXPERIENCE

Machine Learning Engineer at TMIS

June 2024 - Present

- Built and deployed machine learning models for NLP, computer vision, and predictive analytics using TensorFlow, Keras, and YOLO.
- Enhanced model accuracy through data preprocessing, feature engineering, and hyperparameter tuning.
- Deployed ML models into production with Flask APIs, ensuring seamless integration with backend systems.

PROJECTS

Agricultural crop Recommendation system

Built responsive, user-friendly web interfaces with React.js and Tailwind CSS, ensuring cross-device and cross-browser functionality. Collaborated with design and backend teams to integrate APIs, ensuring seamless data flow and a cohesive final product.

EDUCATION

2020 - 2024	Btech ECE at IIIT UTTRAKHAND	(GPA: 9.0/10.0)
2020	(Class 12th) Andhra Pradesh board	(Percent: 91)
2018	(Class 10th) SSC board	(Percent: 90)

SKILLS

Frontend Development	HTML, CSS, JavaScript, Bootstrap, Angular
Backend Development	Flask, SQL
Machine Learning	Deep Learning, NLP, YOLO, TensorFlow, Keras, Neural Networks, Model Deployment
Programming Languages	Python, JavaScript

LANGUAGES

Telugu	Native
English	Proficient
Hindi	Intermediate
